Jammu.

No: Estt/PF/SRO/ 25951-54

Dated: 03-09-2015

Copy to the:-

1. Assistant Commissioner (Dev.) Samba for information.
2. Accounts Officer Directorate Rural Dev. Jammu for information.
3. Shri Vishal Rasgotra S/O Late Shri Bhagwan Dass (Ex-VLW) R/O Vijaypur for compliance.
4. Office order file.

111

The first part of the report is devoted to a general description of the project and its objectives. It is followed by a detailed account of the work done during the period covered by the report. The results of the work are then presented and discussed. Finally, the report concludes with a summary of the work done and a list of references.

The work done during the period covered by the report has been of a general nature. It has consisted of a study of the literature on the subject, and of the design and construction of a number of experiments. The results of these experiments are presented in the following sections.

The first experiment was designed to determine the effect of the concentration of the solution on the rate of reaction. It was found that the rate of reaction increases with the concentration of the solution.

The second experiment was designed to determine the effect of the temperature on the rate of reaction. It was found that the rate of reaction increases with the temperature.

The third experiment was designed to determine the effect of the surface area of the reactants on the rate of reaction. It was found that the rate of reaction increases with the surface area of the reactants.

The fourth experiment was designed to determine the effect of the catalyst on the rate of reaction. It was found that the rate of reaction increases with the concentration of the catalyst.

The results of these experiments are summarized in the following table:

Experiment	Factor	Effect on Rate
1	Concentration	Increases
2	Temperature	Increases
3	Surface Area	Increases
4	Catalyst	Increases
